PROFILE

Owing to a successful growth rate year after year and aligning with the expansion strategy of the company, by operating in diversified energy segments; Cables & Accessories, Electrical Products, Energy Measurement & Management, Transformers, Communications, Projects & Development.

Ankit Electricals has become a significant contributor to the economic growth in India through its development into a well-established group with extensive holdings, both locally and beyond borders. With the goal of providing our customers a one-stop solution in terms of Designing, Engineering, Procurement and Construction.

Ankit Electricals has been able to maximize its commitment to improve efficiency by ensuring that its management possesses the expertise and talent necessary for the most critical business needs and has thus succeeded in maintaining a solid financial position.

Therefore, we incorporated as Industrial Trading House and is a group of professionals having vast experience of Trading and Marketing of various types of electrical goods & equipments.

Customer satisfaction is one of Ankit Electricals prime tenets and could be recognized in our efforts to strive for efficiency and service improvements. The quality of our services has enabled the group to pursue further with its mission of assuring our customers the most efficient product quality for their businesses. Quality & safety are uncompromised for Ankit Electricals; the adopted policies assure maximum effectiveness & efficiency through all process systems, making sure that every aspect of the company activity is aligned to satisfy our objectives of meeting or exceeding customer expectations by using the full potential of every person.

We fully anticipate our continuing efforts that lead to further and greater success through more and more society contribution and development...

Team - Ankit Electricals Pvt. Ltd.

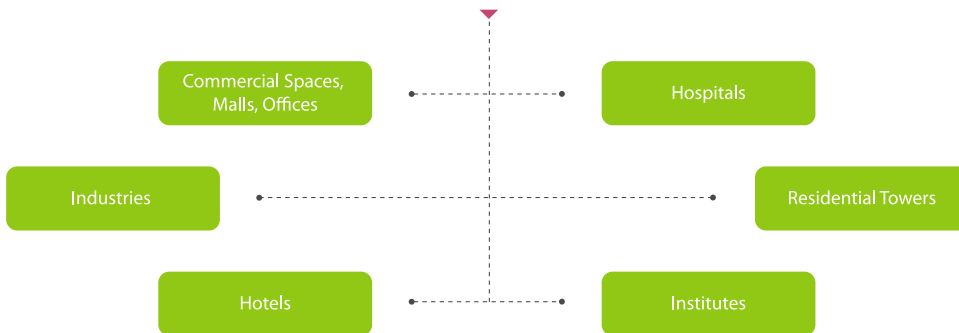

Beautiful, Optimum and Safe solutions.

Quicker than light?

What separates us is our quick response time. Are we faster than light? Well, not really. But we understand that brevity in turnaround is essential for the success of our clients' projects.

This, combined with our perfect execution, on-time delivery and useful and innovative solutions that cater to client-specific requirements, is the secret of our success.

Areas of operations

Why Us?

- We complete what others only finish.
- Process-efficient project management with periodic reports, emails updates, telephonic follow-ups.
- Complete electrical and energy solutions under one roof for customer convenience.
- Regular maintenance and follow-up.
- No procrastination, no delay policy.

Energy & Infrastructure

Your Applications...

- Power generation, transmission & distribution
- Water & waste water treatment
- Transportation infrastructure: airports tunnels
- Data centers & telecommunication
- Production & injection well control systems

Our Solutions...

- Water metering & Management
- Process control
- Telecommunication networks & infrastructure
- Utilities management: lighting, access control, monitoring & safety
- Electricity pre-payment systems
- Multi-site remote management
- Complete cabling solutions for power production, transmission & distribution
- Electricity metering & supply quality
- Switchgears & panel boards
- Overhead transmission lines
- Fiber glass & steel lighting poles

Industry

Your Applications...

- Cable manufacturing
- Automobile
- Cement, aluminum and steel
- Food & beverage packaging
- Pharmaceuticals & chemicals

Our Solutions...

- Electricity metering & supply quality
- Utilities management: lighting, access control, monitoring & safety
- Optimization of process energy performance
- Control & monitoring systems for machines
- Process automation
- Complete cabling solutions for power & special cables or control, instrumentation, fiber optics, winding & data cables
- Electrical distribution: protection & installation systems
- Complete raw materials solutions for cabling manufacturing
- Fire alarm solution
- Switchgears & panel boards

Buildings

Your Applications...

- Office buildings
- Shopping centers
- Industrial buildings
- Hotels & hospitals
- Water lagoons
- Warehouses
- New compounds

Our Solutions...

- Power supply & distribution
- Utilities management : lighting & access control
- Energy measurement & management
- Data exchange: Voice-Data-Image, power line carrier technology & radio
- Multi-site remote management
- Fire alarm solution
- Energy saving lamps
- Fiber glass & steel lighting poles

Residential

Your Applications...

- Single family homes
- Apartment buildings
- New buildings & renovation

Our Solutions...

- Monitoring & safety
- Home automation & data exchange
- Electricity, water metering & supply quality
- Communication & multimedia networks: voice-data-image & power line carrier networks providing access in all rooms to telephone, TV, internet and other connections via the electrical wiring system
- Energy saving lamps
- Fiber glass & steel lighting poles
